JAMES JONES TIMBER SYSTEMS DIVISION CELEBRATE 10TH BIRTHDAY

James Jones & Sons Ltd Timber Systems Division, the largest domestic producer of I-joists in the UK, is celebrating its 10th birthday and is marking ten years of success and growth in producing their FSC/BREEAM certified JJI-Joists.

Formed in 1998, the Division started with just six people and operated one I-joist production line. Ten years on and some £7m investment later, James Jones TSD employs 70 people, including 4 of the original 6, operates two I-Joist lines, one Finger Jointing line and a newly commissioned Web Line.

Mr Brian Robertson, General Manager of the Division comments:

“It’s fantastic to be celebrating ten years of the Timber Systems Division. I have been here since the start and it has been wonderful to see the demand for I-joists grow and the Division flourish over the years.

“Incredibly, in the last four years alone, over a ¼ million houses in the UK have been built with JJI-Joists! I look forward to the next ten years and hope for even more success going forward.”

James Jones & Sons Ltd, Timber Systems Division is the UK’s only FSC/BREEAM certified I-joist manufacturer, and the largest UK owned producer of I-Joists.
